Get ready to be inspired and motivated by these industry leaders as they take the stage. From thought provoking discussions to practical tips and strategies, our speakers will leave you with a wealth of knowledge to apply to your own professional journey.

Scott McLeod
EHS Software Solution Expert

Scott will share his expertise in implementing enterprise-level SaaS-based onboarding and compliance solutions. Learn about the experiences and realized efficiencies of organizations utilizing the BIS platform, including integration with IntelliPERMIT, and how it has transformed their onboarding processes and ongoing competency assessments.

Julian Gonzalez
Principal Planning and Governance, RTIO

With over 20 years of experience, Julian's passion for automation and technology has led him to leadership roles in automation engineering companies, with a strong focus on innovation in mining, rail, and other industries. Julian's dedication to excellence is evident in everything he does, whether consulting in the tech space, leading large teams, or spearheading ground breaking projects.

Doug Bester
MD – Sentient Computing

Doug's presentation, "Using Data and Immersive Interactive Environments to Make Better Decisions," will demonstrate how interactive virtual environments can revolutionize data visualization and interpretation. Discover how this innovative approach can empower organizations to improve safety and productivity, make informed decisions and drive automation and remote work.

David Thomson
MD – Smart Staff International

David will shed light on the critical issue of human factor error rates in isolation systems. Explore the latest technological solutions and emerging technologies that ensure accurate, efficient, and virtually faultless isolation verification.

Ashkan Shahmir
Managing Director, IMMS

Ashkan will guide the audience through the advantages of using an end-to-end digital shutdown management system to transform your annual shutdown program. He will explain how the organisation's cloud-based system, SMSi, can seamlessly integrate with IntelliPERMIT, providing a powerful, easy to use, and effective solution.

Scott Bredin
Divisional Executive - Adapt IT

Join Scott as he delves into the ever-evolving landscape of EHS software and technology. Gain valuable insights into emerging trends and discover how organizations are leveraging technology to enhance safety, compliance, and efficiency.
